No.CSB-31/2(CSGRC-MIS-10)/2020-21/RCS

Dated: 30.04.2020

By e-mail

To
The Director,
CSGRC, Hosur

Sir,

Sub: Submission of revised final report - Reg

Ref: No.CSB/CSGRC/PMEC/Tech-12/2018-19/1872 dated: 11.02.2020

With reference to the subject cited above, it is to inform that the final report on "Evaluation of mulberry genetic resources for functional traits associated with resilience to climate change- PIE-3575" was reviewed at RCS, CO, CSB and the following are the observations made.

- i. To include all the institutes/ units and also the CIs in the investigators list with period of their association during the project period of May, 2016 to April, 2019.
- ii. To furnish valid reasons for –
 - a. including REC, Koppal as test site in spite of soil related issues,
 - b. low fund utilization,
 - c. delay in submission of final report,
 - d. variation in the number of test accessions/ checks, parameters considered for the study/ method of statistical analysis employed at each of the test centre,
 - e. for not indicating the check varieties at each of the test centre,
 - f. Non-indication of objective-wise (plant traits identified for specific parameters viz. thermo-tolerance, nitrogen use efficiency, drought tolerance for different environments) project outcome
- iii. To specify action already taken/ proposed to be taken by the investigators on utilization of project outcome.

In this regard, it is requested to revise the said final report as per MIS-10 format incorporating the above observations and resubmit to CO within 15 days from the date receipt of this letter.

Yours faithfully

Dr. K. Sathyanarayana
Scientist-D, RCS
