

PIE 06011MIC: Identification of promising mulberry fruit yielding accessions

Period: September 2025 to August 2027

Investigators: Dr. M.C. Thriveni (PI), Mr. Raju Mondal, Dr. M. Nandan, Dr. Ravindra, Dr. K.N. Madhusudhan, Dr. N. Balachandran, Dr. Abhilasha, Dr. G.R. Halagunde Gowda and Dr. Priyadasrshini (CI).

Objectives:

1. Establishment of experimental plot at CSGRC, Hosur and FC&RI, Mettupalayam.
2. Characterization and evaluation of fruit yielding accessions for phytochemical constituents.
3. To identify the potential fruit yielding mulberry accession and develop package of practices.
4. To improve the shelf life of mulberry fruit.
